

# Get a Running Start on the Competition

**READY**

**You Add Services to stay Competitive**

**SET**

**To Add Services You Buy Equipment**

**GO**

**Use GreatAmerica & Make the Equipment Pay for Itself**

Your employees are there to make you money, **and so is your equipment!** You don't pay a full year's salary to a new employee on the day they start, neither should you pay the entire price for equipment on the day it starts.

<p><b>IMPROVE CASH FLOW AND PROFITS</b> No money down and low monthly payments let the equipment pay for itself</p>	<p><b>ENJOY POTENTIAL TAX BENEFITS</b> Let Uncle Sam help pay the lease with possible tax savings and you'll own the equipment at the end of the lease</p>
<p><b>INCREASE TECHNICIAN PRODUCTIVITY</b> New equipment means new services and greater efficiency with the potential to bill more tech hours</p>	<p><b>MAXIMIZE YOUR FINANCIAL RESOURCES</b> Use cash and bank lines for personnel, stocking inventory, or advertising</p>
<p><b>BE A ONE-STOP SHOP</b> Keep existing customers and add new ones by offering a broader range of services</p>	<p><b>IT'S EASY</b> Simply complete a one-page application to get started</p>

Why wait for equipment that could be earning you money today?
